WELCOME

How to use this lookbook

Everything you need to go from 'I like it, but I can't picture it' to a clear, confident design plan for your home.

1 **Browse**
Explore the five most-loved American styles and the color palettes that make each one work.

2 **Copy**
Grab a prompt formula for your room, paste it into the app, and adjust the details.

3 **Compare**
Generate 3 to 4 variations of the same photo and pick the direction you love most.

4 **Plan**
Use the checklists, budget tiers and regional tips to turn the picture into a project.

What's inside

Section	What you get	Page
Prompt Anatomy	Build a great AI design prompt in six parts	3
Top 5 USA Styles	Signature features and palettes	4
Color Playbook	The 60-30-10 rule and four proven schemes	5
32 Room Prompt Formulas	Kitchen, living, bed, bath, dining, outdoor, garage and more	6
Before & After Framework	How to photograph, prompt, compare and plan	10
Quick Wins & Budget Tiers	Room-by-room upgrades from weekend refresh to full remodel	11
Regional Design Guide	What works best in each part of the USA	12
Planning Checklist	Before you hire, buy or build	13

Tip: print this guide or keep it open next to the app so you can copy prompts directly.

PROMPT ANATOMY

Six parts of a prompt that works

Specific prompts give specific results. Cover these six parts and the AI has far less room to guess.

Part	What to say	Example
1 Style	Name one clear design direction	Modern farmhouse, Japandi, mid-century modern
2 Room	Say which room and its key function	Open-plan kitchen with a large island
3 Materials	List 3 to 5 hero materials and finishes	White oak, quartz, brushed brass, plaster
4 Colors	Give a main color and one accent	Warm white walls with sage green cabinets
5 Lighting	Describe natural and artificial light	Soft morning sun, warm pendant lights
6 Mood	Add the feeling you want	Calm, airy, family-friendly, luxurious

Weak vs. strong

Weak prompt	Strong prompt
Make my kitchen look nice and modern.	Modern farmhouse kitchen, warm shaker cabinets, white quartz counters, butcher block island, matte black hardware, subway tile backsplash, soft natural sunlight, calm and family-friendly.

Pro tips

Change one thing at a time

Keep your prompt and swap a single element (flooring, color, lighting) to see exactly what it does.

Respect the room's bones

Add 'keep existing windows and layout' so the AI redesigns surfaces and furnishings, not the structure.

Name materials, not adjectives

'Fluted oak, honed marble, boucle' beats 'beautiful and luxurious'.

Light the photo well

Shoot in daylight with lights on and curtains open for the cleanest redesigns.

TRENDING IN 2026

Top 5 USA architectural & interior styles

The looks American homeowners are searching for, saving and remodeling toward right now.

1. Modern Farmhouse

Cozy but clean. Shaker cabinets, black hardware, wood beams and plenty of white. Best for: family kitchens, open-plan living, suburban homes.

Warm White	Shaker Sage	Matte Black	Butcher Block	Soft Gray
#F5F1EA	#A8B5A0	#2B2B2B	#C49A6C	#D9D6D0

2. Contemporary

Clean lines, warm textures and layered lighting without the cold minimalism. Best for: new builds, condos, open living rooms.

Taupe	Natural Oak	Charcoal	Cream	Brass
#B8A99A	#D2B48C	#3A3D40	#F2EDE4	#B08D57

3. Coastal California

Relaxed, sun-washed and indoor-outdoor, with natural fibers and sea-glass tones. Best for: patios, beach homes, sunrooms and light-filled spaces.

Sea Glass	Sand	Navy	Driftwood	Crisp White
#A9CBC4	#E6D8BF	#1F3A5F	#B9A992	#FBFBF8

4. Mid-Century Modern

Organic shapes, warm wood, statement lighting and playful pops of color. Best for: ranches, split-levels, dining rooms and offices.

Walnut	Mustard	Teal	Burnt Orange	Off-White
#5C3D2E	#D9A220	#2F6F73	#C75B2A	#F4EFE6

5. Scandinavian

Light, calm and functional. Pale woods, crisp whites and cozy natural layers. Best for: bedrooms, small homes, condos and bright open spaces.

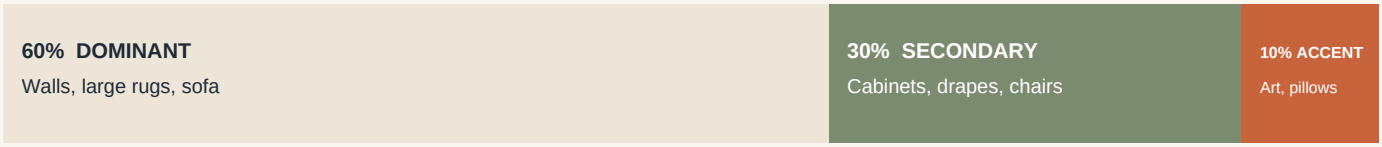

Snow	Birch	Soft Gray	Pine	Dusty Blue
#FAFAF7	#E3CFAE	#CFD2D4	#5E7B6B	#9FB4C2

COLOR PLAYBOOK

Choose colors with confidence

Great rooms look balanced because they follow a simple ratio. Use it in your prompts and your shopping list.

The 60-30-10 rule

Pick one dominant color for roughly 60% of the room, a secondary color for 30%, and an accent for 10%. In a prompt, say it plainly: *'warm white walls, sage green cabinets, brass accents.'*

Four schemes that work in almost any American home

Warm Neutrals - Calm, timeless, easy to resell.

Oat	Mushroom	Walnut	Linen
#E8DFD0	#B8A89A	#6B4E3D	#F3EEE4

Moody & Rich - Dramatic for dens, baths and dining rooms.

Midnight	Deep Green	Aged Brass	Plum Gray
#1F2A37	#2F4A3C	#B08D57	#5A4B55

Fresh & Airy - Bright and open for small or low-light rooms.

Cloud	Mist Blue	Pale Oak	Sage
#F4F6F7	#BFD3DC	#D9C7A8	#A8B5A0

Earthy & Natural - Grounded and organic with warm textures.

Terracotta	Olive	Sand	Cocoa
#C8643C	#7A7A48	#E6D8BF	#5C4033

Color mistakes to avoid

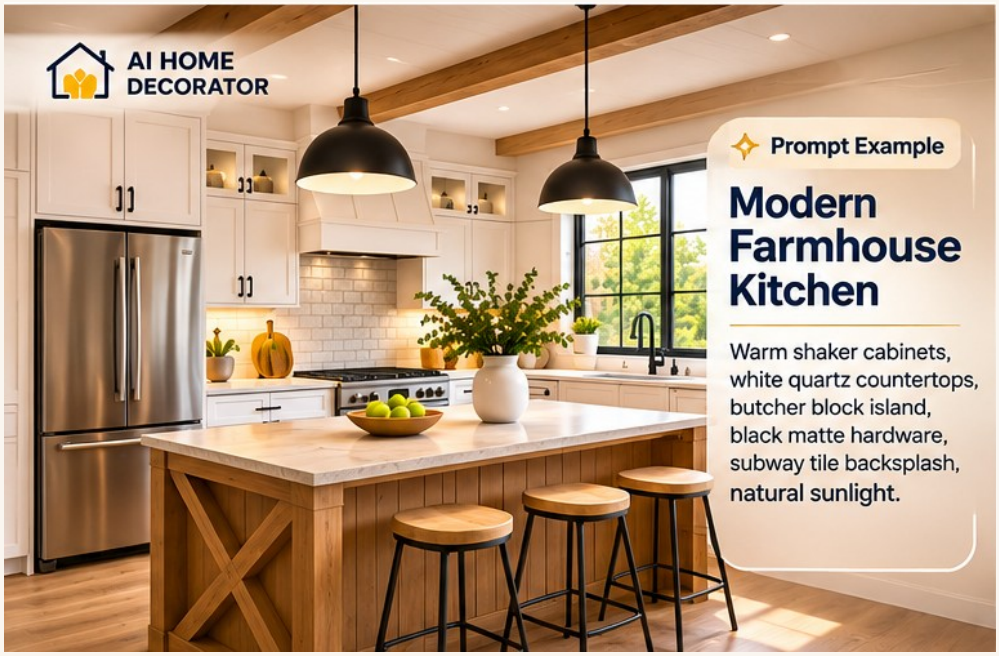

Testing in one light only
Check samples in morning, afternoon and evening light. North-facing rooms read cooler.

Ignoring undertones
Match warm with warm and cool with cool, especially for whites, grays and woods.

ROOM PROMPT FORMULAS

32 copy-paste prompts for every room

Paste these into AI Home Decorator after uploading your room photo. Swap materials and colors to make them yours.

Kitchens

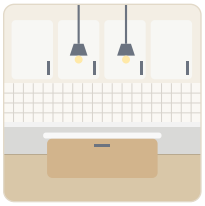

Modern Farmhouse Kitchen

Warm shaker cabinets, white quartz countertops, butcher block island, black matte hardware, subway tile backsplash, natural sunlight.

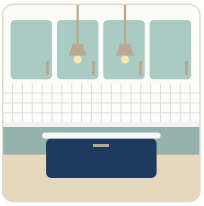

Transitional Two-Tone Kitchen

Navy lower cabinets, white upper cabinets, honed marble backsplash, brushed brass pulls, waterfall island, pendant lights.

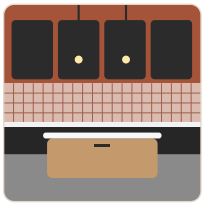

Japandi Minimalist Kitchen

Flat-panel white oak cabinets, soft white plaster walls, black steel accents, paper pendant light, calm uncluttered counters.

Coastal Cottage Kitchen

Soft white cabinets, sea glass green tile, open wood shelving, farmhouse sink, woven counter stools, bright daylight.

Industrial Loft Kitchen

Exposed brick wall, matte black cabinets, stainless appliances, concrete counters, reclaimed wood island, steel pendant lights.

Living rooms & family spaces

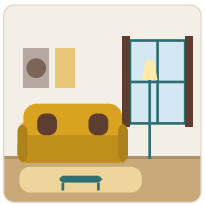

Contemporary Living Room

Warm taupe linen sectional, natural oak fluted coffee table, ambient floor lamps, textured woven wool rug, large picture windows.

Craftsman Living Room

Built-in bookcases, stone fireplace, leather armchair, forest green accent wall, warm oak trim, layered table lamps.

Mid-Century Lounge

Low walnut sideboard, mustard accent chair, teal ceramic lamp, geometric wool rug, slim tapered-leg sofa.

Modern Mountain Cabin

Vaulted ceiling with timber beams, stone fireplace, plush shearling throws, charcoal sofa, black framed windows, cozy lighting.

Traditional Colonial Refresh

Crown molding, soft gray walls, classic roll-arm sofa, brass picture lights, patterned rug, symmetrical styling.

Finished Basement Media Room

Plush sectional, built-in media wall, acoustic wall panels, warm dimmable sconces, wet bar, deep charcoal and walnut.

Bedrooms

Scandinavian Master Bedroom

Light oak platform bed, crisp white linen bedding, neutral muted beige walls, minimal brass sconces, abundant natural daylight.

Hotel Suite Bedroom

Upholstered headboard wall, layered white bedding, matching nightstands, plush drapes, warm bedside lamps, neutral greige palette.

Desert Boho Bedroom

Terracotta accent wall, rattan headboard, woven wall art, cotton macrame textiles, trailing plants, warm golden light.

Moody Retreat Bedroom

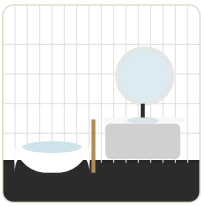

Deep green walls, dark wood bed, velvet bench, aged brass lamps, textured drapes, soft evening glow.

Bathrooms

Luxury Spa Bathroom

Freestanding soaking tub, frameless glass walk-in rainfall shower, marble floating double vanity, warm LED backlit mirrors.

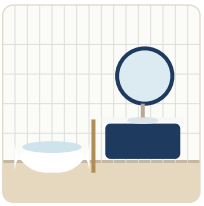

Classic Black & White Bath

Hex floor tile, white subway wall tile, black framed shower glass, pedestal sink, polished nickel fixtures.

Bold Powder Room

Dark botanical wallpaper, sculptural brass mirror, floating stone vanity, statement pendant, small and dramatic.

Coastal Retreat Bath

Whitewashed wood vanity, sea glass tile, rattan mirror, linen towels, soft natural light, calm and airy.

Dining rooms

Mid-Century Modern Dining

Walnut dining table with curved wishbone chairs, brass sputnik chandelier, geometric wool area rug, warm wood credenza.

Farmhouse Gathering Dining

Long reclaimed wood table, mixed bench and chairs, linen pendant lights, white plank walls, greenery centerpiece.

Formal Transitional Dining

Upholstered host chairs, round pedestal table, grasscloth walls, glass chandelier, paneled wainscoting, soft neutral palette.

Outdoor & curb appeal

Coastal California Patio

Teak timber decking, cedar pergola with climbing jasmine, gas fire table, cozy Sunbrella cushioned seating, string lighting.

Texas Hill Country Porch

Limestone pavers, deep covered porch, ceiling fans, cedar rocking chairs, native grasses, warm lanterns at dusk.

Backyard Entertainer

Built-in outdoor kitchen, stone bar counter, lounge seating, fire pit circle, layered path lighting, lush privacy planting.

Modern Curb Appeal

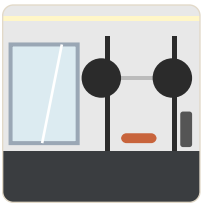

Charcoal front door, black house numbers, board and batten siding, layered landscape beds, warm entry sconces, clean walkway.

Garage, utility & specialty

Modern Organized Garage

Glossy light gray epoxy floor, modular matte black wall cabinets, overhead steel storage racks, LED strip lighting, workbench.

Home Gym Garage

Rubber flooring, wall-mounted storage, mirror wall, power rack, bright LED panels, ventilation fan, clean white walls.

Mudroom & Laundry

Built-in cubbies with hooks, bench seating, patterned tile floor, deep utility sink, folding counter, closed storage.

Bright Home Office

Solid oak desk, ergonomic chair, floor-to-ceiling shelving, task lighting, calm green accent wall, window view.

Calm Nursery

Soft white crib, warm oak dresser, pale sage walls, blackout curtains, cloud-shaped rug, gentle night light.

BEFORE & AFTER

The Room Transformation Framework

A repeatable six-step process real homeowners can follow for any room.

1 Capture

Stand in a corner at chest height and shoot the whole room in daylight. Straighten verticals and clear clutter.

2 Measure

Note wall lengths, ceiling height, window and door sizes. Measurements keep your ideas realistic.

3 Decide

List what stays (floors, windows, layout) and what changes (color, lighting, furniture, finishes).

4 Prompt

Use the six-part prompt from page 3 and add 'keep existing layout' when you want surface-only changes.

5 Compare

Generate 3 to 4 versions. Save your favorites and note what you love in each, then combine.

6 Plan

Turn the winner into a shopping list and phased budget. Start with the changes that make the biggest difference.

Photo checklist

Do	Avoid
Shoot in daylight with lights on and curtains open	Flash photos and dark evening shots
Capture the full room with ceiling and floor visible	Tight crops that hide the layout
Hold the phone level at chest height	Tilted or wide-angle distorted angles
Remove clutter, cords and personal items	Busy countertops and piled furniture

QUICK WINS & BUDGET TIERS

Smart upgrades, matched to your budget

Start where the visual impact is highest, then phase bigger projects over time.

Tier	Focus	Typical scope
Weekend Refresh	Lowest cost, big visual change	Paint and trim, new light fixtures, cabinet hardware, textiles and rugs, art, plants, styling.
Mid-Level Update	Moderate cost, noticeable value	Cabinet refacing or painting, new counters, flooring, faucets, backsplash, built-ins, outdoor lighting.
Full Remodel	Highest cost, biggest change	Layout changes, structural work, new kitchens and baths, additions. Plumbing, electrical and structure need licensed pros and usually permits.

Room-by-room quick wins

Kitchen

Repaint or reface cabinets, swap hardware, add under-cabinet lighting, update the faucet and backsplash.

Living room

Layer lighting at three heights, add a large rug, edit furniture layout, swap curtains for floor-to-ceiling.

Bedroom

Use a statement headboard wall, warm bedside lamps, and heavier drapes for a hotel feel.

Bathroom

Update the mirror, lighting and fixtures, re-caulk, add a new vanity top, and refresh towels.

Entry & curb appeal

Paint the front door, update house numbers and lighting, trim shrubs, add planters.

Garage

Add wall storage and overhead racks, paint or coat the floor, install bright LED lighting.

Budget smart

Get at least three written quotes for larger jobs, keep a contingency of 10 to 20% for surprises, and finish one room at a time so you can learn what works before committing to the next.

REGIONAL DESIGN GUIDE

Design for where you live

American homes face very different climates and lifestyles. These tips help your design work year-round.

Northeast

Plan for snow and salt with durable entry flooring and a real mudroom. Layer warm textiles and mix period details with modern pieces.

Southeast

Choose humidity-tolerant materials, light airy colors and a screened porch or covered patio. Ceiling fans are both style and function.

Midwest

Make the most of basements and flexible family rooms. Warm woods, hardy flooring and strong storage handle four-season living.

Southwest & Texas

Use light heat-reflective exteriors, tile and stone floors, deep shade, and strong indoor-outdoor flow.

West Coast

Lean into indoor-outdoor living with large glazing, natural wood and drought-tolerant landscaping.

Pacific Northwest

Maximize daylight, add covered outdoor space for the rainy season, and use moody greens and natural textures.

Match style to home type

Home type	Styles that fit naturally
Ranch or split-level	Mid-century modern, contemporary warm, Japandi
Bungalow or older home	Craftsman revival, traditional refresh, cottage
New suburban build	Modern farmhouse, transitional, coastal
Condo or apartment	Contemporary warm, Scandinavian, minimalist

PLANNING CHECKLIST

Before you hire, buy or build

Use this list to move from a favorite design to a well-run project.

Design

[ ] Choose one primary style and one backup
[ ] Pick a color scheme using 60-30-10
[ ] Save your top 3 AI designs as references
[ ] List must-keep elements and must-change elements

Practical

[ ] Measure every wall, window and door
[ ] Set a total budget plus 10 to 20% contingency
[ ] Photograph existing conditions before work starts
[ ] Note the room's lighting at morning, noon and evening

Professionals

[ ] Confirm licensing and insurance for every contractor
[ ] Get at least three written quotes
[ ] Ask whether permits are required for the work
[ ] Agree on timeline, payment schedule and change-order process

Shopping

[ ] Order samples before bulk purchases
[ ] Check lead times for cabinets, tile and appliances
[ ] Confirm dimensions against your measurements
[ ] Keep receipts, warranties and finish names in one folder

Important to know

AI-generated images are a visualization tool. They do not account for structural limits, local building codes, utilities or exact product availability. Electrical, plumbing, gas and structural work should always be done by licensed professionals, and many projects require local permits. Check with your city or county building department first.

Ready to see your home redesigned?

1. Install AI Home Decorator free from Google Play
2. Snap a photo of any room
3. Paste a prompt from this guide and watch it transform

Search 'AI Home Decorator' on Google Play

AI-generated designs are for inspiration and visualization. Always confirm measurements, codes and permits with licensed local professionals before starting construction.
